

RECOMMENDATION LETTER

(Domain Expert Validation)

Date: 04/05/2026

To whom It May Concern,

Sri Lanka Institute of Information Technology (SLIIT),
New Kandy Road, Malabe (Sri Lanka)

Subject: Expert validation of Medical Translation Texts

This is to confirm that Ms. Charunya Dissanayake consulted me regarding her research titled "*Multi-Agent System for Government Health Websites in Sri Lanka's Multilingual Landscape.*"

I have reviewed and evaluated the translated dataset used in this study. This included verifying the accuracy of medical terminology, making necessary corrections, and engaging in discussions with the researcher on appropriate Sinhala and Tamil translations within a medical context.

Based on my review, I am satisfied that the dataset accurately reflects established medical terminology as used in Sri Lanka. Furthermore, I confirm that the dataset structure and terminology are consistent with current medical practices and are suitable for academic research purposes.

I therefore recommend the use of this dataset for the above-mentioned research.

Yours sincerely,

Special Grade Nursing Officer: H.M. Sabry

Registration No:

Hospital/Clinic and Ward:

Address:

Signature and Official Seal:
